

IDEATION PHASE

DEFINE THE PROBLEM STATEMENTS

Date	04 May 2023
Team ID	NM2023TMID04624
Project Name	Project – Cognitive Care : Early Intervention of Alzheimer’s Disease

Problem Statement (PS)	I am	I’m trying to	But	Because	Which makes me feel
PS-1	Student	develop Early intervention of Alzheimer’s disease to encourage medical research and to support the people with development of technology.	training the DL algorithms for different databases related to brain disease is difficult.	of lack of a comprehensive dataset.	Disappointed.
PS-2	Doctor	Flexibility ensures minimal loss in the Doctor’s ability to convey information.	It leads to difficulties in data aggregation.	There are many considerations that leads to pursue customised work flows.	Frustrated

PS-3	Patient	Check whether I've got the Alzheimer's disease or not.	The patient population for implementation and use of these models should reflect the overall population.	The training data should be obtained.	Frustrated
